

# NW DAHLIA LEGACY PROJECT

Committed to gathering and protecting the invaluable knowledge of our NW Dahlia Leaders and ensuring its accessibility to future generations

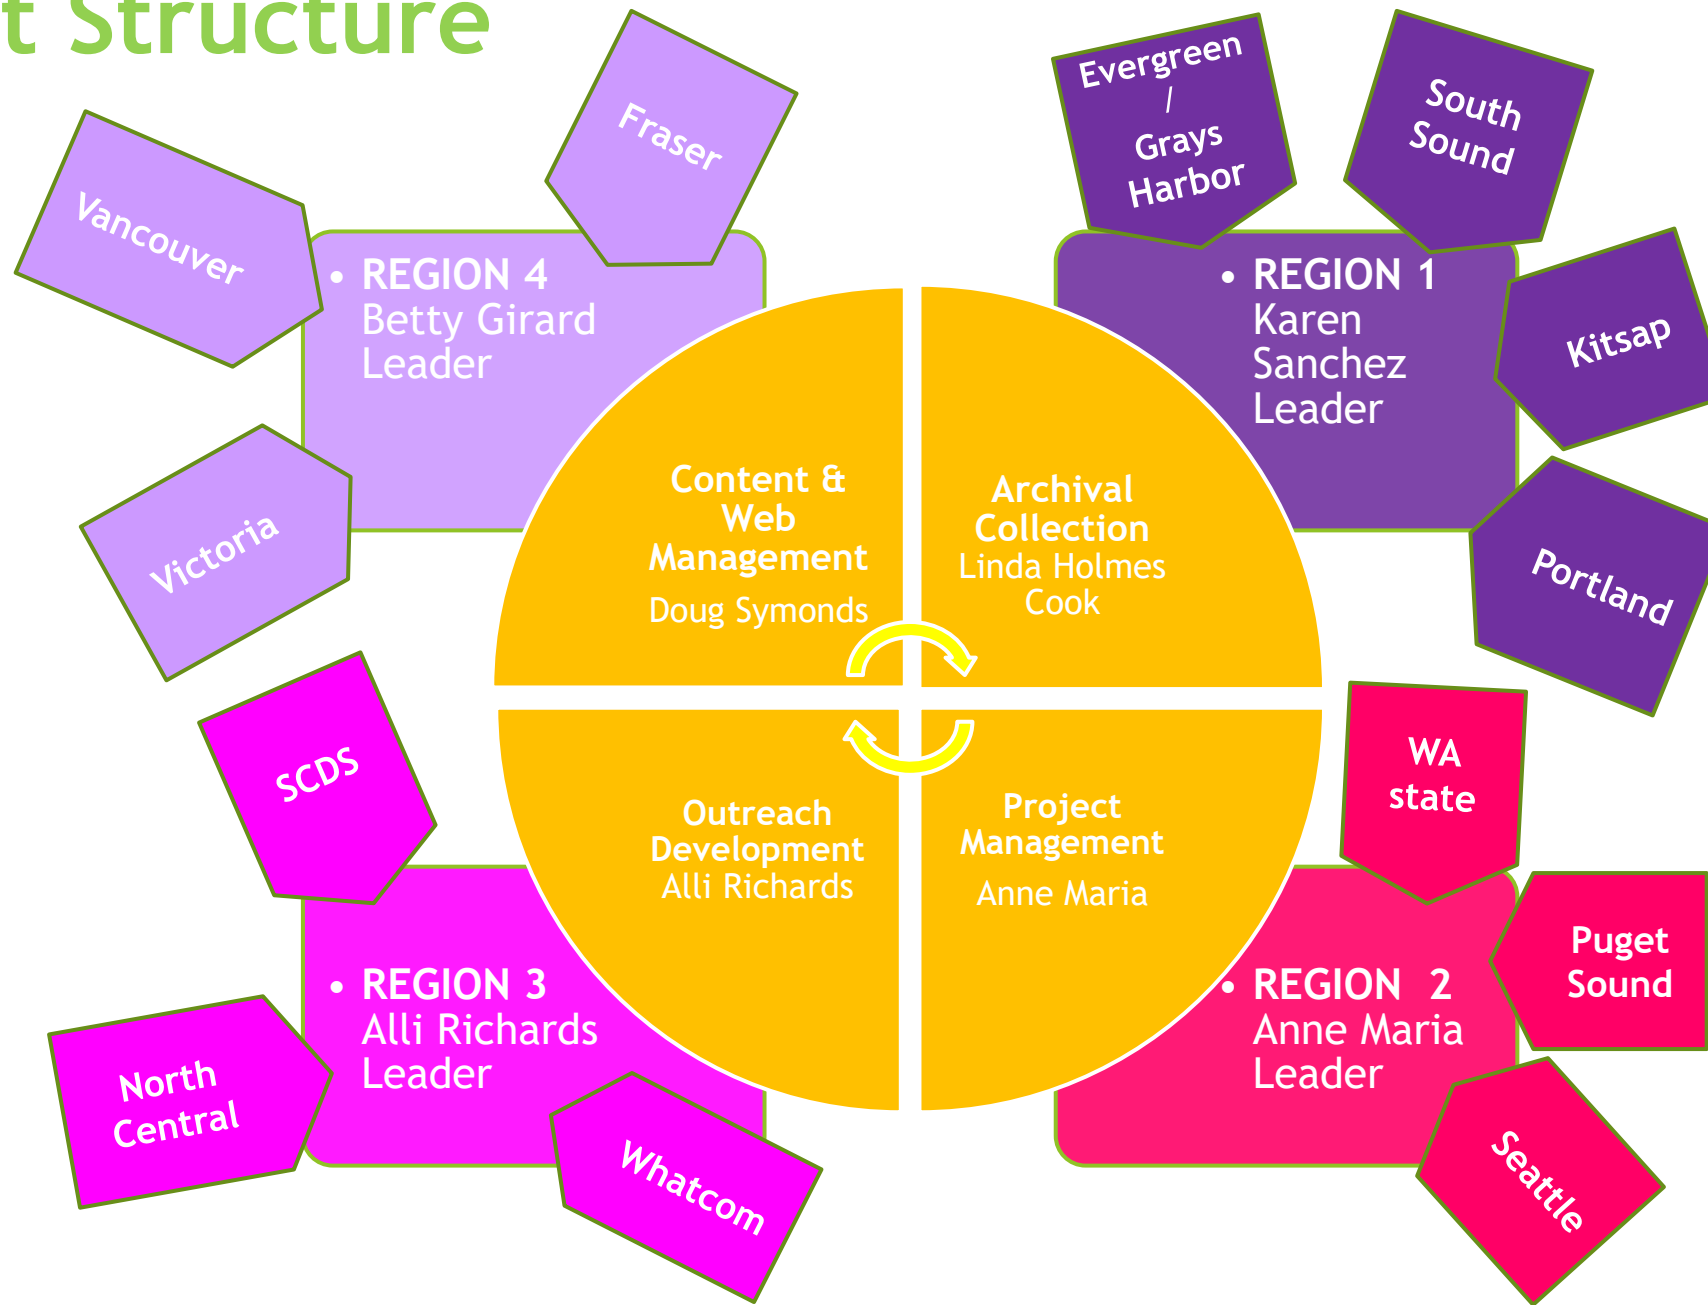

# What is the NW Dahlia Legacy Project?

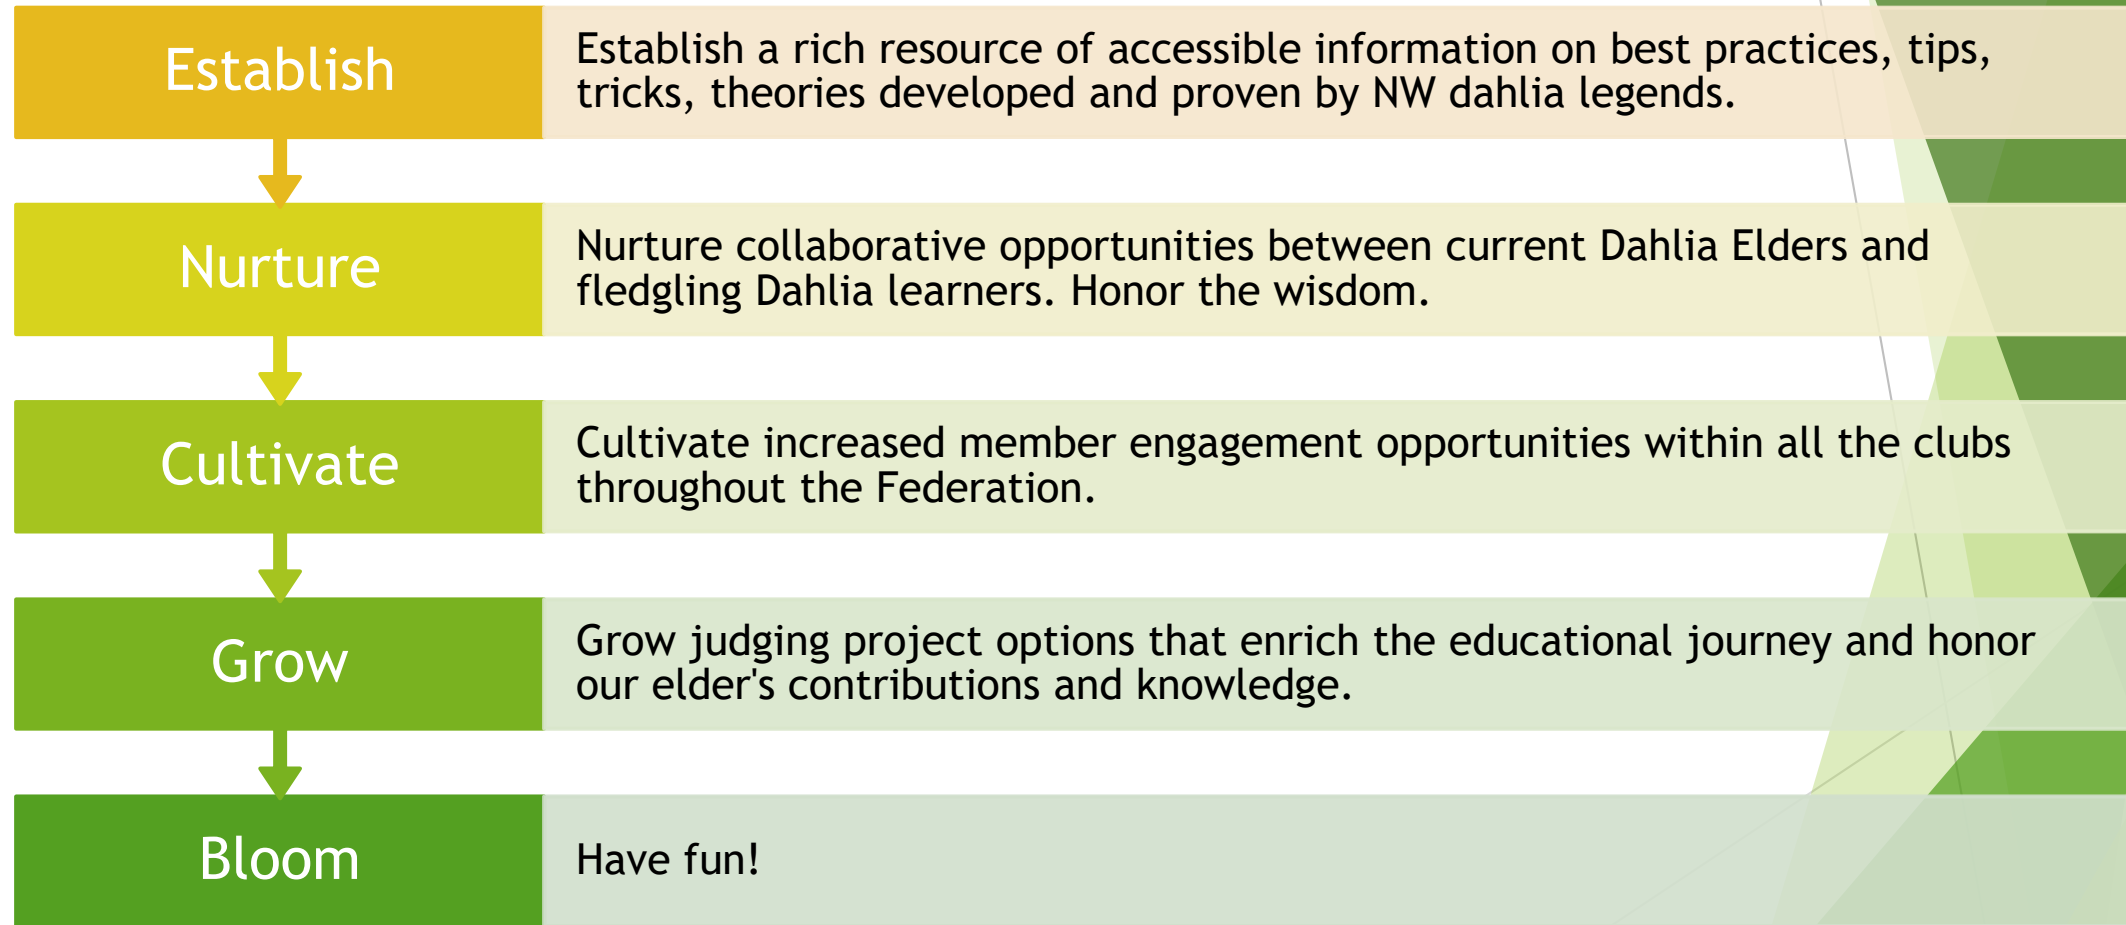

- ▶ Our beautiful Northwest region historically has a remarkable abundance of extraordinary, visionary, cutting edge and noteworthy dahlia growers.
- ▶ We will begin to build an official depository of their history, signature methods and list of their cultivators.
- ▶ We will systematically document and collect this wealth of information into one site that all Federation members can easily access for reference and to learn from.
- ▶ We are establishing an apprenticeship like approach to obtaining best practices from those we still can, while we can!

# Project Structure

# Project Objectives

# Project Goals

## Regional Participation

Each region to complete 1 profile each quarter for a total of 3 annually - (That equals 1 per club each year)

## Grow the Profile Depository

Upload a minimum of 12 completed profiles to the Federation's website each year

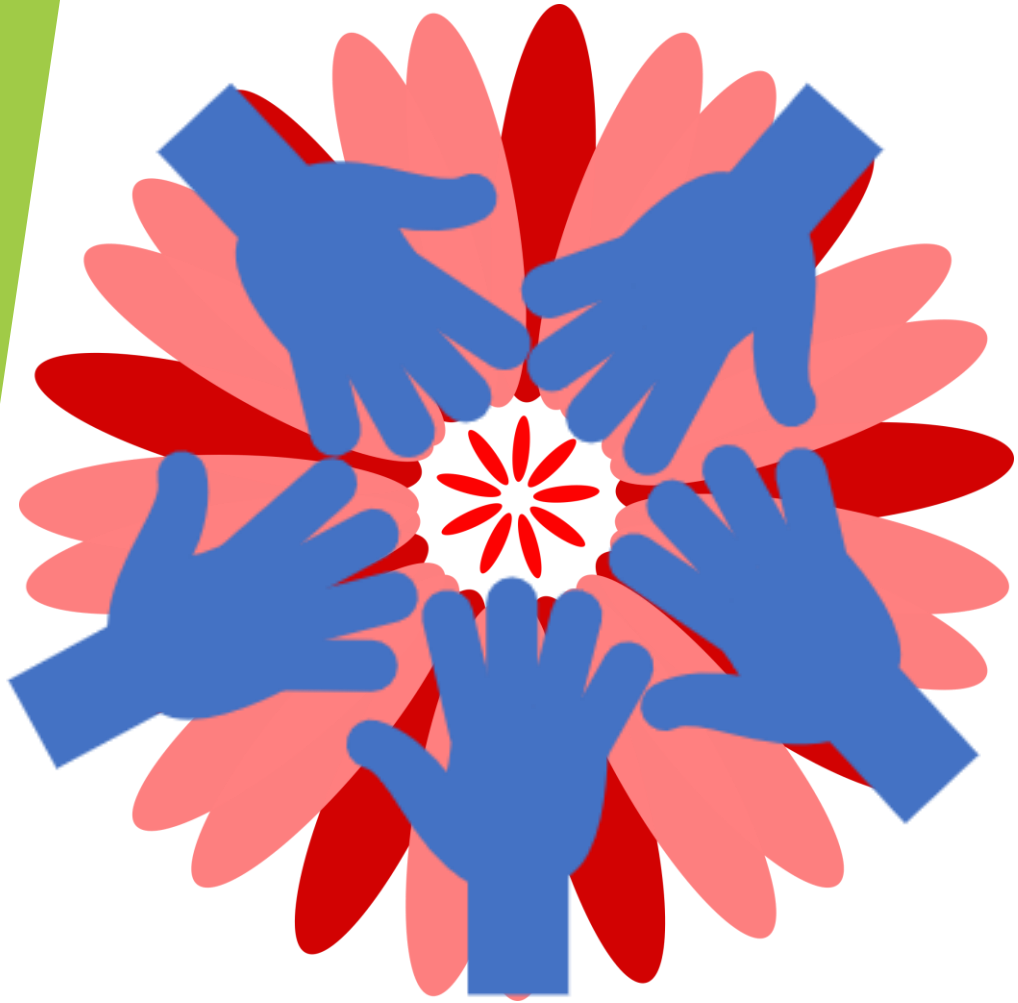

## Enrich Educational Engagement Opportunities

Support the judging advancement process with projects leveraging the profile development program
